MEMORANDUM FOR: Director of Training

SUBJECT : Briefing for Wives of Employees Departing for Overseas Duty.

1. [REDACTED] an employee in the Office of the Comptroller who is departing for Europe on a permanent-change-of-station basis within the next couple of days, was in to see me today. He said that he would like very much to record his enthusiasm for the new course which briefs the wives of employees going on overseas tours, indicating that he thought such a program was a major psychological development which would promote morale and otherwise improve our operations in many respects. He said that his own wife's experience had been such as to bring about great enthusiasm for our work, his assignment, etc.
